

Press Release: Reinhard Ferstl joins LS Laser Systems as new managing director

For Immediate Release

July 1, 2019 | By: Photonics Systems Group

LS Laser Systems GmbH, the leading German laser equipment manufacturer for laser trimming systems, is pleased to announce the appointment of Reinhard Ferstl as Managing Director of the company.

Reinhard brings in more than 25 years' professional experience in the high-tech equipment industry, establishing worldwide sales and after service organizations for new industries and emerging markets.

“We are very happy to get Reinhard on board to drive LS Laser Systems to future growth, said Markus Nicht – CEO of the Photonics Systems Group.

“Reinhard’s very good knowledge of laser technologies and setting up new organizations is a valuable asset that will help us to expand our business in laser trimming worldwide.

Reinhard comes to the LS Laser Systems from his previous role as Director Sales & Marketing Asia /EMEA at Corning Laser Technologies, where he was responsible for all Sales and Marketing activities in Glass and Electronics.

He commented: “We are really looking forward to significantly grow the business at LS Laser Systems in the Electronic and Semiconductor market worldwide.” Reinhard has a background in electrical engineering and has worked in various executive managerial positions throughout his career.

About Photonics Systems Group

Photonics Systems Group's core companies are InnoLas Solutions GmbH and LS Laser Systems.

InnoLas Solutions is a leader in laser processing of micro-materials. The group designs and produces customized machines and processing systems for high-precision laser applications in the photovoltaic, electronics and semiconductor industry alongside precision engineering. It supplies renown, globally active customers in the core markets Europe, the US, and Asia. The group has over 100 employees working at its group headquarters in Krailling, Germany, as well as in the US and at several sites in Asia.

LS Laser Systems is a medium-sized Bavarian company based in Munich that operates internationally and has over 25 years of experience in laser technology. Its core business focuses on developing, producing, distributing, and servicing active and passive laser trimming systems as well as other micro-processing systems. The company has gained an excellent reputation over the course of two and a half decades as a reliable and highly productive partner.
