

Press Release: Photonics Systems Group appoints Eckhard Schäfer as Vice President Sales Asia

March 21, 2019 | By: Photonics Systems Group

Photonics Systems Group, the leading German laser equipment group for micro material processing, is pleased to announce the appointment of Eckhard Schäfer as Vice President Sales Asia.

Eckhard brings in more than 25 years professional experience in the high-tech equipment industry, establishing worldwide sales and after service organizations for new industries and emerging markets. “We are very happy to get Eckhard on board to organize our sales and after sales structure in Asia”, said Antonio Schmidt – CSO of the Photonics Systems Group.

“Eckhard’s excellent knowledge of structuring the sales and after sales business is a valuable asset that will help us to expand our business in Asia.”

Eckhard comes to the Photonics Systems Group from his previous role as Vice President After Sales at Manz AG where he was responsible for all worldwide after sales activities, including displays, energy storage, electronics and photovoltaics. He commented: “I look forward to expand the business of the Photonics Systems Group in Asia with an excellent sale and after sales force.”

Eckhard has a background in electrical engineering and worked many years in service and commissioning functions before he took over more management responsibilities.

About Photonics Systems Group

Photonics Systems Group's core companies are InnoLas Solutions GmbH and LS Laser Systems.

InnoLas Solutions is a leader in laser processing of micro-materials. The group designs and produces customized machines and processing systems for high-precision laser applications in the photovoltaic, electronics and semiconductor industry alongside precision engineering. It supplies renown, globally active customers in the core markets Europe, the US, and Asia. The group has over 100 employees working at its group headquarters in Krailling, Germany, as well as in the US and at several sites in Asia.

LS Laser Systems is a medium-sized Bavarian company based in Munich that operates internationally and has over 25 years of experience in laser technology. Its core business focuses on developing, producing, distributing, and servicing active and passive laser trimming systems as well as other micro-processing systems. The

company has gained an excellent reputation over the course of two and a half decades as a reliable and highly productive partner.
